Hi there,

I am looking at my calendar and I just wanted to say that I don't have anything pressing for this one on one, so unless you have anything specific, I'm okay postponing until next time.

Things coming up - Juneau Access (already let you know), the Website Workgroup is meeting tomorrow later in the morning, and the national ESTP call is later that day where I am on the agenda to give a brief explanation of including a cultural component to the CEF. I'll probably have more updates on these and hopefully next steps for A2Z and info on the Koloski criminal side at the next meeting.
